

CP **Control Plus**

OCTOPUS Lite

RFID Compact Solution

Compact solution with RFID. RFID technology allows to control up to 256 different beverage brands with 4 programmable portions individually.

Octopus Lite accessories

Nylons: Small, Medium, Large, X-large

Bug protect

Washing device

RFID Liquor pourers

This liquor control device is designed to interface with POS solutions but can also be simply connected to a printer.

This is an excellent alternative for those who need RFID technology at lower cost.
